About Arthur J Gallagher

Arthur J. Gallagher is pleased to offer our exclusive Charter First Program (CF) to the Charter Schools of Massachusetts. CF is an insurance, risk management, and safety program designed specifically for charter schools. We are fortunate enough to have over 1,000 charter schools across the United States as active members of the CF program. CF was developed by charter school leaders and insurance professionals throughout the U.S. in order to address the specific risk charter schools face. CF's aim to give business managers and CFO's peace of mind as well as to save schools money. Please feel free to contact us to see if your school is a fit for our program.
